BE AWARE with KeyCite Overruling Risk

Trust you’re citing good law. Only KeyCite® Overruling Risk on Westlaw Edge cautions you when a point of law in your case has been implicitly undermined based on its reliance on an overruled or otherwise invalid prior decision.

• Get warnings on implicitly overruled points of law
• See an orange warning icon, similar to red and yellow flags, integrated into your research
• Avoid reviewing each case manually to determine whether it cites an implicitly overruled point of law

BE INFORMED with Statutes Compare

Quickly understand how a statute has changed over time. Statutes Compare on Westlaw Edge lets you easily see the most recent changes to a statute right from the document and compare any two versions.

• Get coverage across all practice areas
• Compare any two versions right from the History tab
• Download, print, or email the comparison

See the text that was deleted from the latest version in red strike-throughs, and text that was added to the latest version in blue with highlights.
